At Madrid sentries exposed to the "death breath," blowing from the Guadarama mountains, are changed every half hour.

The fire which occurred at Tokio toward the end of last year destroyed 12,000 houses and left 40,000 people without shelter.

Mont Blanc is not the highest eminence in Europe. According to the latest measurements, the Elburz, a mountain of the Caucasian chain, exceeds it by more than 2300 feet.

The Irish stew missionaries are found to have wonderful power in drawing crowds in the East End of London. They gather their cold and hungry flocks to feed thrice a week,

Bodie people are practicing snow-shoeing preparatory to the snow-shoeing carnival to take place in March. They are experts on shoes. A Bodie lady is said to be the champion mow shoe walker of the Pacific coast.

Says the Bodie New: All the wild animals in the country are ravenous, caused by the deep snow in the mount-ains, and will attack man or beast, ains, and will attack man or beast.
Even coyotes charge into the very town. Last evening at dusk the little 4-year-old boy of Wm. Higgins stepped outside of the door, and was going for a little dog. The mother looked out in time to save her child from a pack of hungry coyotes.

Forget The Marriage License,

The Chronicle says: "The private residence of Bishop Kip was ablaze with illumination and happiness last evening, the occasion being the prospective marriage of D. P. Belknap, a member of the firm of Winans & Belknap, attorneys, to Miss Marian Gray." The bride and bridegroom took positions ready for the ceremony, when the Bishop whispered for the license, which reminded the groom that he had altogather forgoten that very necessary document. Amid the confusion of the groom and the blushes of the bride, friends came to the reacue, a hack was procured, the County Clerk was found, the license procured, and after a delay of two hours the couple was made happy. The humorous fauz pas lent an additional zest to the enjoyment of the assembled guests. The Chronicle says: "The private resasembled guests.

A Curious Use of Small Fish.

At a public meeting in San Francisco, B. B. Redding said that while engaged in his duties as Fish Commissioner, he had learned that the Chinese annually ship to China the shells of shrimps, and the bones and scales of small fish, making a trafficjof \$600,000 a year. He said the small nets used by the Chinese and others in estehing shrimps also capture a vast quantity of small fish, and that the bay was being rapidly exhausted of fish through these small nets. The articles named were used in the interior of China, where the tea plant exhausts the soil of certain properties, and it was found that the powdered bones and shells used as a fertilizer At a public meeting in San Francis and it was found that the powdere bones and shells used as a fertilize restored these qualities.

RENO'S FIRE SYSTEM.

Reno is in about the same condition as far as her ability to fight fire goes, that she was a year ago to-day. Th report of H. J. Thyes, published in another column, shows that we are by no means in a safe condition. The supply of water is limited, very limit-ed, and the department is in need of improvement in many ways. The pipes which lead to the cisterns are small, the cisterns too far apart and not more than half enough in number. The precautions suggested by the most ordinary intelligence or care have been neglected. It must sound very odd to people in other dation that the company be provided with pick-axes and lanterns. If we do not profit better by the experience we have had than that, they will say, we deserve very little sympathy. The apathy displayed by the business men of Reno is almost incredible. They have their all at stake, and yet they allow the two companies to get along as best they may. Some of the solid men who are members do not even pay their dues. Hardly a dozen make a practice of attending meetings. The citizens of Reno should take immediate steps to improve her system. A fund should be raised some way or other to meet the expense. Not a man should pend a short bit for a cigar or a drink offwhiakey or any luxury until the fund is large enough to meet the case. Such a course would reduce our rates of insurance and give a sense of security which would benefit the town greatly.

AN ANNIVERSARY.

A year ago, this second day of March, Reno was visited by a conflagration in which five human lives were lost, and over a million dollars worth of property was destroyed. It was a dreadful calamity, and surveying the town to-day, our citizens can feel justly proud of what has since been accomplished. Reno is to day a better and fairer town than it was a year ago. On every side are evidences of progress and prosperity.

This is a day, of all days, to reflect upon the lessen which that fire has taught us. Just such a wind was blewing to-day as blew one year ago Let a little fire be started out doors in such a howling storm, and the whole town is in danger of destruction. Be cautious. A live coal carelessly thrown out with ashes or in a wooder receptacle, a lighted match thrown aside, a little spark among combustibles may bring on such another widespread conflagration as that this annicautious.

BOAD LOCOMOTIVES.

Several road locomotives recently arrived at New York by steamer from England, and a press dispatch says that the vehicles are to be shipped to Wadsworth. Nevada, to be used in the transpertation of ores and general merchandise.

in certain pasts of England for several years. They will propel themselves over almost any kind of ground. The Road locomotives have been in us als are very broad and usually fursicles make powerful traction en nes and can be made to draw heavy freight wagons, timbers, etc. The They reads and are easily managed.

EDITORIAL NOTES.

The Scotch chemist, who has suc in making diamonds from charcoal says the cost is so great that the artificial process can never affect the price. The Bulletin says: After experimenting over a period of nearly two hundred years, it has been found possible to manufacture a diamond as large as a pin head which answers all rket, or none, at least, until some re pure diamonds as large as mar will be made in our day, unless it is

Reno Evening Gazette chusetts, showing the following footings as to preferences for President; Republicans, first choice—Blaine, 216; Grant, 89; Sherman, 32; Washburne 28; Edmunds, 15; Hayes, 6; Garfield, 2; Conkling, 5.

Looks a little weak for Garfield, it the country newspapers are going to decide the thing.

It is sad to read of that fight after meeting" which occurred in Omaha the other day, and resulted in the death of one deacon and the laceration of several church members. There had been divine service in a school house, and a subsequent scuffle developed into a general free fight. Some twenty pistol shots were fired, while clubs, chairs and book racks were used with a great deal of freedom. The air was full of flying hymn books and bibles. The quarrel was over a district school directorship.

The telegraphic war in Colorado nd Nebraska continues. Jay Gould's line, the American Union, is in poss ssion of the wires of the Kansas and Union Pacific roads. These facts will bring to the minds of many the article headed "T. P. U.," published some months ago in the GAZETTE, in which these events were outlined to a hair. The same authority said the American Union would have a line from Ogden to California by June 1st., and also predicted a big strike. We may see fun in 1880.

The people between this place and the Dalles are very much concerned about Mr. Key's order to reduce the mails from daily to weekly. When people once get a daily mail they can hardly live without it. Seventy-two young men have been sentenced by default at Berlin to a fortnight's imprisonment and 150 marks fine for emigrating without permission and evading the conscription.

A snow slide occurred in Logan canyon, Utah, on the 27th, about 25 miles from Logan, which buried six men and several teams. Four of the men got out, but two men and three teams were left burried in the snow. Fifty five men left Logan immediately to dig for the men. The names of the victims are not known.

The suit begun by Lyon county against the Virginia and Truckee Railroad Company, to compel the company to pay taxes for the year 1879 upon a valuation of \$25,000 per mile of main track, and \$8000 per mile of side track, resulted, in the district court at Dayton, in a verdict for the full amount sued for.

The man named Elkins who was bed in Reno last Friday night is through which sparks from our engine fall when she is run out, and, which have already on one occasion set fire. This should be attended to. The fire alarm bell on the engine for the robbery he had \$140 in \$20\$ gold places in his pockets. While in an interested condition, he visited a contage on Lincoln avenue, where his money was stolen from him while he slept. He did not find out his loss attil as hour after he left the house. When he went back to it he could not recognize the inmate, whose dress had undergone a complete transformation. As Elkins could not identify the lady of the house, and at there was nothing peculiar about the coins that could lead to their identification, the officers could do nothing in the matter.

ciency of the company, and have at times met with but very little encouragement from the public, and property owners generally, no one seeming to take any interest whatever in fire matters; but when a fire does occur, expect us to work wonders, with almost nothing to do it with. We consider that the town is not now, even after our sad experience of March 2d. sider that the town is not now, even after our sad experience of March 2d, 1879, fin any way sufficiently protected against another fire. Our water supply is insufficient; the main pipes are not large enough if it becomes necessary to work for any length of time. The only cistern available is the one at the head of Sierra St. which we pumped dry three times that day, the other two cisterns on Commercial Row being covered with sheets of flame. Had we had a good supply-of water in the first cistern mentioned, no doubt a great many buildings on the north side of the track could have been saved. We do not express ourselves in this manner to seek the sympathy of the public or anything of the sort, all we ask is to have the prop-erty owners and business men take a little more interest. Some parts of

for instance, all that property north of the track in the neighborhood of Mr. Leete. This town should, as soon as possible, be supplied with fire plugs. We always find plenty of help to talk of fires and to countermand our orders, and make all the confusion posaible; but few to work and render us any assistance. Our company consists of about thirty members, of whom we can always depend on about eight or ten turning out and working at a fire. Most seem to think to get their names on our books is all that is necessary. They do not even deem it proper to attend our meetings once a month. This is but poor encouragement for us, the majority of whom ment for us, the majority of whom have little or nothing at stake in the town, but are willing at all times to do our utmost to protect the property of Rang from John Marie 1988 of Reno from destruction; in these efforts we often ruin our clothes and endanger our lives. By the incorporation of Reno we are entitled to

People knowing that a certain man, whomever he might be, receiving a salary for his services, and supposed to know some thing of his business, and having full thing of his business, and having full control of the department, his orders would not be interfered with as they now are. It would be of great benefit to have such an officer. Our engine house is too small for our apparatus, and should be enlarged, and if passible, another story built ou top, in which the company could have meetings and reading rooms; our company might thereby be increased and more interest taken by members. We would suggest that the engineer of Reno Eagine No. 1, be paid a little more salary for his services. It often occurs ary for his services. It often occurs with our high winds, that to use pre-cautions against fire it would be well

These figures are obtained from the records at the railroad office. In addition to the cattle sent to California hundreds have been sold in this mar ket and driven to Virginia, of which there is no official record. It is much within the mark to put the total number of beef cattle sold in this market and exported in the last two months at 4,000 head. The value of these cattle may be estimated at \$140,000.

Edward Payson Weston, the celeorated pedestrian, passed through on the express train for San Francisco last evening. Weston is built a good deal like a pair of tongs. He runs to legs, like a derrick. Weston's best feat was one of the marvels of human endurance. He has walked 550 miles in air consecutive days of twenty four hours each, beating the best time ever made before. But Weston's best time was beaten in London by Blower Brown last month. Brown covered

558 miles in six days.

The above offer is genuine, although at first sight you would consider it impossible. We will explain: Since we first established our business here. March 1st. 1878, we have paid particular attention to the buying of Bankrupt and Auction lots of Jeweirv and Watches often buying at as 10w as one-tent their value, and in no instance have we paid over one-sixth the manufacturers' price. Since starting we have always been able to dispose of these goods in Chicago and through our regular customers throughout the country at nearly regular prices, as fast as we could procure them, but owing to the large number of failures among the heaviest dealers and manufacturers throughout this and other conntries during the months of June, July and Angust (the time when the jeweiry business is stagnant), we have now on hand an immense stock of the most desirable goods we have ever handled, and which we have jought at lower prices than ever before. In order to dispose of this entire stock in the most speedy manner possible, and make room tor new ones which we shall continue to buy, we have hit upon the following novel plan:

Co-Partnership.

SHAEFFER'S ADVERTISEMENT.

NOTICE IS HEREBY GIVEN that the partnership heretofore existing under the name, style and firm of J. W. SHAEFFER & CO., is this day dissolved by mutual consent. The business of said firm will be hereafter conducted and carried on by JOHN W. SHAEFFER, who will receipt and liquidate any and all indebtedness due and owing by said firm JOHN WERNER SHAEFFER JULIUS KRAEMER.

Dated, San Francisco, Dec. 29, 1879.

In reference to the above I desire to notify my customers that I shall carry on the manufacture of Cigars as formerly, on the old name of J. W. SHAEFFER & Co. My aim in the future, as in the past; shall patrons a fair and full equivalent for their money, only asking in return promptitude in remitting the values I have given them at the time agreed. It will be my effort to make my long experience (unexcelled as local manufacturer) more than ever profitable to my customers, by more than usual care in the selection and treatment of the Tobacco, and in nicety of execution in manufacturing. shall adhere strictly to the determination announced by SAN FRANCISCO BULLETIN my firm some months ago, not to employ drummers to effect sales, but rely solely on the merits of my goods and give all the advantages of reduced expenses to my patrons in lower uprices I shall, however, visit, if pos sible, personally, or by my former salesman, B. F. Armstrong, all my customers during the year, to ascertain their views, and profit, if I can, by the experience they have gained in handling my goods, as to the wants of the trade and the tastes of consumers. Thanking myfriends for past favors so liberally bestowed, I can say, on soliciting their continuance, that
